

**Butler Community College
Fire Science
Residency Program**

KANSAS' ONLY FIRE SCIENCE RESIDENCY PROGRAM

Butler's Fire Science residency program is so unique because it is the only one of its kind in the state of Kansas. As part of our partnership with the El Dorado Fire Department, our program offers the opportunity to work alongside professional firefighters. You won't just study in a hands-on learning environment: you'll live it. Residents have specific shifts to gain on-the-job experiences you won't find anywhere else.

To apply:

Complete the following application and submit it with a 300-word essay describing why:

- You wish to be a Butler Community College Fire Fighter resident
- You feel you are a good resident candidate
- What your public safety goals are
- What you believe you will bring to the program as a resident and student

Interviews will begin in May.

If selected for the residency program, students will need to:

- Successfully pass a background check
- Have a negative urine drug test
- Pass a routine health physical
