Introduction to Code Workshops

Workshop 1: HTML & CSS 1 - Ditch the WYSIWYG

Date: Saturday, July 11, 2015   **1:00pm - 5:00pm**

So you've published on the web before, but you're still scared of what lurks behind the "code" button on your WYSIWYG editor? Don't be! Learn how to navigate HTML, the code that makes up the web, and how to wrangle that code with CSS, the code that makes the web look good.

Workshop 2: Deeper into HTML and CSS, inc. Bootstrap - Other People's Styles

Date: Saturday, July 18, 2015   **1:00pm - 5:00pm**

With a basic understanding of HTML and CSS, you can use tools like Bootstrap to speed up your work. Learn everything you need to know to go from empty files to ready to publish in one afternoon.

Workshop 3: Intro to JavaScript - Your First Programming Language

Date: Saturday, July 25, 2015   **1:00pm - 5:00pm**

With JavaScript, you can start to make your code dynamic. Learn how JavaScript can move things on a web page, change colors, and do complex mathematical calculations.

Workshop 4: JavaScript with Libraries - How to use the Library

Date: Saturday, August 1, 2015   **1:00pm - 5:00pm**

Combine the power of JavaScript with a library like jQuery you can work faster and accomplish so much more.

Workshop 5: Version Control with Git

Date: Saturday, August 8, 2015   **1:00pm - 5:00pm**

Use Git to track changes, collaborate with other developers, maintain an archive of your projects, and keep changes in check.
