Health In A Hurry

- At the beginning of each program, we'll ask you to select your Motivator. Then, you can start the Journey that will best help you reach your health goals.

To begin your Journey, we'll ask you a couple of questions to gauge how confident you are about changing your behavior. Your answers help us personalize the Journey just for you, to help you succeed.

- Once you are in your Journey, you'll see a list of Steps. You need to complete these Steps in order to earn Experience Points, or “XPs”. You can read through the Steps and pick the ones that interest you. Some Steps will require you to watch a brief video, or read an article about healthy behavior. Others might ask you to commit to changing a small habit, such as taking a one-minute ‘dance break’ once during the week, or writing down your worries at night to help you sleep better. As you earn more XPs, you'll progress through the Stages. Your Journey is complete once you finished all the Stages. At the end, you'll earn a Badge in your Profile page to mark your accomplishment.
